

REACH Compliance Declaration

Dear valuable partner,

The aim of REACH regulation is to ensure a high level of protection of human health and the environment from chemical substances. Pursuant to Article 33 (1) of the Reach regulation, suppliers of articles containing SVHCs on the candidate list in concentrations above 0,1% weight by weight (w/w) must provide their customers with sufficient information to ensure the safe use of the articles.

BISOL does not independently conduct analytical testing for REACH and the information in this letter is based upon data from our supply chain sources which is believed to be reliable and accurate. We are in constant communication with the supply chain to determine if any such substances are present in the products supplied to BISOL Proizvodnja, d.o.o., BISOL will notify its affected customers upon any discovery of any article containing a SVHC or banned substance above maximum concentration defined in REACH.

Based on information obtained from our suppliers, the products produced by BISOL Proizvodnja d.o.o. do not contain any Substances of Very High Concern (SVHC) in concentrations above 0.1% by weight, in accordance with the SVHC Candidate List published by the European Chemicals Agency (<https://echa.europa.eu/candidate-list-table>).

As REACH regulation is updated frequently for the major changes, such as the addition of SVHC substances into Annex XIV and the addition of restricted substances in Annex XVII, BISOL Proizvodnja d.o.o. will evaluate the further revisions in time and update this declaration to reflect these changes.
